

.Net Software Developers

Candidates should possess:

- * BS/MS in Computer Science or Electrical Engineering
- * 3 yrs+ working experience
- * 1+ year experience with .Net framework (ASP.net or C#)
- * Experience with WAP, J2ME, BREW and wireless application development (a plus)
- * HTML/JavaScript experience
- * SQLServer 7.0/2000, Oracle or Informix experience (SQL)
- * Team player with excellent communications skills

Position Overview:

This is an ideal position for someone who can work effectively in a small group and independently in a fast paced environment. You will be following a .NET framework utilizing C# and ASP.NET for all web based application development. The applications you will be developing / enhancing includes smsFlirt, smsFriends, smsChannels, MobilePartner and many more future applications. All developers will work closely with marketing and business development in improving these applications and adding better functionality. You will have a hand in not only the programming, but also in the look and feel of the applications. You will also have the opportunity to lead projects from start to finish.

Day-to-Day (Culture):

The work environment adheres to the engineers that want to have a say in all aspects of the product life cycle. If you are looking for a 9-5 where you can sit quietly and code exactly what you are told to, this is **NOT** the place for you. We are looking for intelligent, creative programmers that embrace challenges and obstacles with confident determination and resolve.

Our 40 million + users span over 200 countries. Our engineers' applications and ideas affect each of them as fast as they create it. SMS.ac is changing the world everyday and we are already pioneering the technology that is molding the direction of the industry.

We've been successful to this point by recognizing the little things that bottleneck most companies. Our employees are dedicated leaders that have left the concepts of ego, politics, and bureaucracy at the door. With these factors out of the picture we are able to focus on our ultimate objective; to emerge as the leader of the mobile data space.

Please send resumes to: hr@corp.sms.ac
